

**PERUNA**  
FOR COLIC, CHOLERA, DIARRHOEA, DYSENTERY, AND ALL AFFECTIONS OF THE BOWELS.  
DIRECTIONS:—For Adults, 10 to 20 Drops; for Children, 5 to 10 Drops; for Infants, 2 to 5 Drops.  
Price 50 Cts. (3 Cents per Dose)

The tablet form of this old reliable remedy makes it possible for you to check any illness at the very onset. It is a safeguard against colds, coughs and other catarrhal conditions, no matter what symptoms are manifest. Catarrh is an inflammation of the mucous membrane that lines the breathing apparatus and the digestive apparatus. PERUNA relieves catarrh. In tablet form it is **EVER-READY-TO-TAKE**.

Its prompt action makes it invaluable for men and women exposed to sudden changes in the weather or compelled to be out in slush and rain.

It will also be found most satisfactory as a tonic following an attack of illness.

**CARRY A BOX**

wherever you go. Travelers and others compelled to take long drives in the cold and anyone whose occupation subjects him to the danger of sudden colds may use it as a preventive with the assurance that the tablets made are from the same formula as the liquid medicine with its 44 years of success before the American Public.

The Peruna Company, Columbus, Ohio

**YAGER'S LINIMENT**  
For Horse Lameness

Yager's liniment is a stable necessity for sprains, galls, boils, sprain, strained ligaments, swellings, wounds, cuts and swellings.

**"Best Liniment on the Market"**

Mr. Bert Martin, Wesley, Pa., writes: "I had a horse go lame from a strain two months ago and tried four different kinds of liniment on him, but he did not get much better. I got a bottle of Yager's Liniment and he is now sound and ready. I think it is one of the best liniments on the market."

At all dealers—An eight ounce bottle for 25c. Prepared by **GILBERT BROS. & CO., Inc.** Baltimore, Md.

**The Wretchedness of Constipation**

Can quickly be overcome by **CARTER'S LITTLE LIVER PILLS**.

Purely vegetable—act surely and gently on the liver. Cure Biliousness, Headache, Dizziness, Indigestion. They do their duty. **SMALL PILL, SMALL DOSE, SMALL PRICE.**

Genuine must bear Signature

**WINTERSMITH'S CHILL TONIC**

For **MALARIA, CHILLS & FEVER**  
A FINE GENERAL STRENGTHENING TONIC

**PARKER'S HAIR BALMSAM**  
A toilet preparation of merit. Restores color and beauty to faded hair. 50c and \$1.00 at Druggists.

Embarrassment of Opportunities. Argus told of his difficulty. "I can't decide which one to wear a monocle in," he complained.

**FOR HAIR AND SKIN HEALTH**

Cuticura Soap and Cuticura Ointment Are Supreme. Trial Free.

These fragrant, super-creamy emollients keep the skin fresh and clear, the scalp free from dandruff, crusts and scales and the hands soft and white. They are splendid for nursery and toilet purposes and are most economical because most effective.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

A factory is to be opened in the Azores for the manufacture of alcohol from sweet potatoes.

**ELIXIR BABER A GOOD TONIC**  
And Drives Malaria Out of the System.

Your "Babe" acts like magic! I have given it to numerous people in my parish who were suffering with chills, malaria and fever. I recommend it to those who are suffering and in need of a good tonic.—Rev. S. Szymanski, St. Stephen's Church, Perth Amboy, N. J.

**ELIXIR BABER**, 50 cents, all druggists or by Parcel Post, prepaid, from Kloczewski & Co., Washington, D. C.

Colorado has the highest automobile road.

**For Every Kind of Lameness**

Rub it on and Rub it in Thoroughly

**HANFORD'S Balsam of Myrrh**  
ALIMENT

For Cuts, Burns, Bruises, Sprains, Strains, Stiff Neck, Chilblains, Lame Back, Old Sores, Open Wounds, and all External Injuries.

Made Since 1846. Ask anybody who has used it.

Price 25c, 50c and \$1.00

Make Enormous Profits in Harbor Property. Selling new gov't harbor lots \$150, paying \$10 mo.; certain future; live agents want. New Harbor Realty Co., Apia, Samoa, Samoa, Samoa.

# FARM ANIMALS

## EFFECTIVE REMEDY FOR LICE

Important Question Right Now Because Lice are More Troublesome in Winter Than Summer.

(By R. C. ASHBY, University Farm, St. Paul, Minn.)

It has been estimated that a 150-pound hog has 92,000 drops of blood. Suppose he is supporting 1,000 lice and each takes one drop of blood per day. What per cent of his blood will be lost daily, and who will pay the bill?

The question is important right now, for lice are worse in winter than in summer. The hogs pile up closely and spend much time in their beds. The lice take advantage of the situation and breed rapidly.

To remove the lice is neither difficult nor expensive. Dipping or spraying with coal-tar compounds is dangerous in winter, but three other treatments are available. These are:

1. Equal parts kerosene and machine oil mixed together and applied with an oil can, brush or swab.

2. Crude oil (thinned with kerosene, if too thick), applied with a brush or as a spray.

3. Powdered staphisagria dusted on the pigs, or brushed or as a spray.

For a small bunch the first treatment is the most convenient, but when one has many hogs the crude oil is cheaper. Be sure to apply behind the ears and in both flanks. The lice prefer folds of the skin.

Clean the beds and pens thoroughly, also. If these are thoroughly sprayed with the oil, there should be no further trouble from the lice. If the hogs sleep in straw sheds, one can keep them free from lice by treating them every two weeks. Try it!

## FEED BINS MADE CONVENIENT

Can Be Built Beneath Hay Floor Where Stock Is Kept—Much Time and Labor Is Saved.

Handy feed bins can be built beneath the floor of hay drive where stock is kept below the hay. Slanted as shown, the grain falls into the spout leading into a box to catch the waste, says a writer in Western Farmer.

A shutoff slide fits into end of spout. The spout may be made to empty into alley or where most convenient. This saves labor and time, because you fill the bins through trap doors in floor above and there is no lifting at any time.

Feed Bins.

## FEED FOR FATTENING STEERS

Result of Interesting Experiment at South Dakota Station With Silage and Mill Products.

The South Dakota station reports a test made in which three lots of yearling steers of four head each were fed during a 145-day feeding period, each lot receiving all the silage the steers would eat and 12 pounds of a by-product, this being for lot one oil meal, lot two cotton seed meal, and lot three dried distillers' grains. The average daily gains per head were 2.45, 1.95, and 2.17 pounds, respectively; and during the first ninety days 2.69, 2.08, and 2.48 pounds. The estimated cost per pound of gain was 5.86, 6.44, and 5.5 cents.

In two other lots grain was substituted for one-half, by weight, of the silage fed in the former lots, lot four receiving oats and lot five, corn. The former lot made average daily gains of 2.18 pounds per head, the latter 2.09, and during the first ninety days 2.3 and 2.01 pounds, respectively, costing 6.88 and 8.22 cents per pound of gain. The average amount of gain for the 146-day feeding period was as follows: Lot one, 19.7 pounds of silage and 1.2 pounds of oil meal; lot two, 21.2 pounds of silage and 1.5 pounds of cotton seed meal; lot three, 20.3 pounds of silage and 1.3 pounds of dried distillers' grains; lot four, 10.9 pounds of silage and 4.7 pounds of oats; and lot five, 11.6 pounds of silage and 5.9 pounds of shelled corn.

**Danger With Alfalfa.** Avoid letting horses overfeed on alfalfa hay, as there is danger of causing kidney trouble. A rule that has been followed successfully in feeding alfalfa hay is to give one pound of hay for every 100 pounds of horse weight.

**Time for Watering Horse.** Water taken into the stomach of a horse is bound to go in quickly. If given after feeding, it will carry much undigested food with it. Before meal is the time for watering.

**Uncomfortable Stock.** It is a poor policy to have the stable so drafty and the drinking water so cold that the feed given the stock is largely expended in an effort to keep up bodily heat.

**Transforming Corn Into Pork.** The transformation of corn into pork brings good money to those who know how to turn the trick.

**Keep Sheep Pens Clean.** Keep the sheep pens clean. Dirty and foul odors effect sheep quickly.

# SHIPPING VEGETABLES BY PARCEL POST

Lettuce Shipped in Corrugated Pasteboard Containers. (Containers Knocked Down Flat.)

(Prepared by the United States Department of Agriculture.)

Directions for getting produce to the consumer fresh and undamaged.

**Asparagus.** Asparagus should be cut off enough so that it does not become tough or overgrown. The tops should not be wet, as this starts decay, and all imperfect stalks should be culled out. It should be carefully tied up in half-pound or pound bunches, with tops all even and the bottoms trimmed off square. It improves the appearance of asparagus to wrap it in parchment paper.

**Beans (Snap Beans).** Beans, whether bush or pole varieties, should be picked when free from rain or dew, while tender, crisp enough to snap, and before the seed is large enough to bulge the pod very much. The size of the seed will vary with the variety, but both pod and seed must be tender. Any defective, rusty, insect-eaten, discolored or undesirable beans should be kept out. They should be fresh picked when shipped. Only varieties which are entirely or practically free from strings should be grown for parcel-post marketing.

**Cabbage.** Only perfect, hard heads of cabbage should be considered for parcel-post marketing. They should be carefully trimmed of waste leaves and stalk, and soft, growing, bursting, frozen or decaying heads must be eliminated. A variety producing small to medium-sized firm heads should be selected.

**Cauliflower.** The heads of cauliflower should be very carefully handled when cut and after having been cut. In trimming, at least one circle of the large outer leaves besides the smaller ones beneath should be left to protect the head. Paper is sometimes placed over the head for further protection and tucked down inside the leaf stems. All heads must be compact, and any inferior, discolored, insect-damaged or otherwise defective ones should not be shipped. To be of the most desirable eating quality, cauliflower should be used by the consumer as soon after cutting as possible.

**Celery.** Only firm, fresh, well-bleached, clean celery should be shipped. It should be washed and well trimmed of roots, loose and diseased or discolored leaves, and stems. The stalks should be of one length and practically uniform in size. They should be freed from water as thoroughly as possible and wrapped in paper.

**Cucumbers.** For slicing, only the long, straight, smooth, green cucumbers from six to nine inches in length should be shipped. The spongy, thick, yellow, runty, or overlarge ones, or those having wilted or shrunken ends, should be culled out. The cucumbers should be cut and not pulled from the vine.

**Spinach and Kale.** They should be of good green color, without yellow, decayed leaves, or seed stalks, and of proper size according to the season and the market supply.

**"Bunched" Vegetables.** Some vegetables, such as radishes, onions, new beets, carrots, turnips, salsify, watercress and parsley, are tied in bunches for marketing. Occasionally it may be desirable to bunch them for parcel-post marketing, as shown in the illustration.

"Bunched" vegetables should be of proper size, according to the season and the market custom, and should be neatly and carefully bunched. The number in each bunch varies on the different markets and according to the kind of vegetables. The first five

firm; if they are to last the consumer several days, some should be picked "hard ripe" and others beginning to ripen. No ill-shaped, split, curly, wormy, or otherwise defective tomatoes should be shipped for eating purposes.

It is desirable that fruit shipped should be fairly uniform in size unless it is to meet special requirements of the customer. If shipped with other fruits or vegetables, tomatoes should be so packed that nothing else can mash them.

**Green Corn (Sugar).** The sooner sugar corn is eaten after gathering, the better its eating quality. No inferior ears should be shipped. All should be well developed, free from worms, and gathered at the proper stage of development; that is, in full milk, but before showing any signs of firmness or toughness.

**Lettuce (Head).** Consumers prefer firm, well-headed lettuce. It should be well developed, and the heart turned white before cutting. It is best to ship only lettuce which is free from dirt, and no discarded, insect-damaged, or imperfect heads should be included.

**Root Vegetables.** Root vegetables, such as beets, carrots, parsnips and turnips, should be tender, fresh, sound, washed clean and of desirable size. No overgrown, stringy, coarse or undersized stock should be marketed.

**Spinach and Kale.** They should be of good green color, without yellow, decayed leaves, or seed stalks, and of proper size according to the season and the market supply.

**"Bunched" Vegetables.** Some vegetables, such as radishes, onions, new beets, carrots, turnips, salsify, watercress and parsley, are tied in bunches for marketing. Occasionally it may be desirable to bunch them for parcel-post marketing, as shown in the illustration.

"Bunched" vegetables should be of proper size, according to the season and the market custom, and should be neatly and carefully bunched. The number in each bunch varies on the different markets and according to the kind of vegetables. The first five

named are usually shipped with the tops on. If the bunches are broken or if they are not bunched in order to facilitate packing, the count and grade should be the same as if they were shipped in bunches. Farmers' Bulletin No. 703, "Suggestions for Parcel Post Marketing," can be secured from the Division of Publications, United States Department of Agriculture.

**Minor Tool Cost.** The total cost of the minor items of equipment needed on a farm is much greater than the average person is wont to think. It has been found by inventories taken on a number of farms that the tools and implements actually needed on the average farm, from a wheelbarrow down to a husking peg, cost nearly \$200.

**Tomatoes.** Great care should be taken in picking, handling and packing tomatoes, so that they do not get bruised, cracked or mashed. They should be packed without stems to avoid the bruising or other fruit by the stems when packed. If they are for immediate use, they should be ripe, but very carefully packed.

**Feeding Cows for Milk.** Cows will not give better milk than the feed you place before them. They can't. Give only the best and the purest food.

**Best Manure for Garden.** Manure for the garden should be fine and well rotted. Where you have only fresh stable manure available, put it in a pile now, keeping it turned as often as it begins to heat, in order that it may be in better condition for use in spring. It is never advisable

to use fresh stable manure under any garden crop.

**Clean Legs of Chickens.** There is nothing better than cut straw to clean the legs of chickens. Cover the floor to the depth of six inches with clean, dry straw that has been run through a cutting box, throw a few oats and some wheat in it, and let in the poultry. The amount of scratching they will do cleans their legs perfectly, gives them fine exercise and does them good in all ways.

**Rye as a Cover Crop.** Rye as a cover crop is becoming more general and for this purpose is valuable.

# ROAD BUILDING

## USE OF CONVICTS ON ROADS

Passed Through Period of Hysterical Wrangle Into One of Actually Successful Accomplishment.

"The use of convicts on the public roads has passed through the period of hysterical wrangle into a period of actually successful accomplishment, and almost universal acceptance," stated E. Stag Whitin, whose new course in practical penal problems at Columbia university was recently announced.

Doctor Whitin holds that the underlying motive in convict road building must be to secure the great efficiency for the state out of its possessions. But the convicts and the roads are property of the state, and the working of convicts upon the roads should eliminate many elements of waste in the administration of road and prison departments.

"The efficiency of the convict on the road gang," he continued, "differs greatly in different gangs. There is no doubt in my mind that the application of the efficiency records in use at the present time in the Wisconsin road camps for free labor will tend even more perceptibly to raise the efficiency of convict labor.

"Incentive must be created before good work can be produced. Coop any of us up in a stuffy, unsanitary jail for several months, arraign us for trial amid the excitement of what we misname as justice, and then take a few months of breaking our spirit in prison surroundings and there is little likelihood that the thing we call galling will be very apparent. There is definite need of building up if the convict is to return to society and make good."

"The great need," Doctor Whitin concluded, "is for the foreman of a convict road gang to throw his shoulder to the task and inspire his gang with the desire to be like him. The problem lies in securing such men as foreman of the road gangs."

The graduate department of highway engineering at Columbia university has been in close touch with the national committee on prisons and prison labor, which is located on the campus, for a number of years. This work has been carried on under the joint direction of the department and

the prison committee. Doctor Blanchard, professor of highway engineering, sees the great opportunity for the highway road work, and, as he stated in a recent article in the Columbia Spectator: "The humane element must be a factor in the education of the highway engineer of the future." This will be supplied through the co-operation of the national committee on prisons and prison labor and the work under Doctor Whitin at Columbia university.

**Oil Preserves County Road**

Surface Rendered Impervious to Water and Crown Is Almost Like Asphalt—No Signs of Wear.

The only road in Berks county, Maryland, which is strictly a "county road" is the stretch of five miles between Douglassville and Yellow House. By this is meant that it is neither a state nor township road, but is entirely under the jurisdiction of the county authorities.

Recently the road was treated with a coating of crude oil, and no one doubts the wisdom of this action. The road is now not only dust-proof, but the surface has been rendered impervious to water. The crown is almost like asphalt, and there are no signs of wear or tear.

**The Value of Roads.** It cost France \$612,000,000 to build the best system of roads in the world. For many years it has reaped untold wealth, enjoyment and benefit from them, and now those same roads have become the greatest single factor in saving the republic from destruction by invading enemies. Certainly if any sane man doubts the profit or advisability of the best roads and the most of them, France affords an object lesson that none can fail to comprehend.

**Where Is Your Machinery?** You are through with your grain binder for this season. Where is it, sitting out "in the shade of the old apple tree," or is it in a good shed, under a roof? More machinery rusts out in the weather than is worn out by work, all of which is not displeasing to the men who manufacture it. Don't let yours go that way.

**Rye as a Cover Crop.** Rye as a cover crop is becoming more general and for this purpose is valuable.

# GALOMEL SICKENS! IT SALIVATES!

## DON'T STAY BILIOUS, CONSTIPATED

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Don't Lose a Day's Work!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working. You'll be cheerful; full of vigor and ambition.

Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone

under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you can have your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist or storekeeper about me.

**STELLA-VITE**  
"STAR OF LIFE"  
THE GUARANTEED Remedy For Women

STELLA-VITE acts directly on the female organs and regulates the functions peculiar to women. It stops wasting, relieves dangerous suppression, and banishes the terrors of those periods so dreaded by weak, nervous, run down women. It has helped thousands of suffering women and is guaranteed to help you. Your money back on the first bottle if you are not benefited. \$1.00 per bottle. Write for details.

**He Knew.** "Did you ever know that there is a lot of symbolism connected with a deck of cards? Hearts, for instance, signify love."

**No Use.** "Why don't you put in a time clock and keep tabs on your employees?" "It wouldn't pay. They're such a worthless lot that the time they waste is of very little value."

**Use Murine after Exposure in Cold.** Refreshes and Promotes Eye Health. Good for all Eyes that Need Care. Murine Eye Remedy Co., Chicago. Send Eye Book on request.

The trackless trolley system is being used for general freight traffic in several parts of Germany.

**Throw Off Colds and Prevent Grip.** When you feel a cold coming on, take LAXATIVE BROMO QUININE. It restores health and drives out colds and grip. Only one—BROMO QUININE. It is W. G. W. S. signature on box top.

A solution of paraffin in benzine will preserve autumn leaves in their natural colors.

**Girls! Girls! Try It, Beautify Your Hair**

Make It Thick, Glossy, Wavy, Lustrous and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

**War Prejudices.** "Why did you take French leave when Maria wanted you to meet her visiting relative?" "Because she told me he was her cousin-german."

**ENDS DYSPEPSIA, INDIGESTION, GAS**

"Pape's Diapepsin" cures sick, sour stomachs in five minutes—Time It!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is heavy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adv.

In proportion to its size, Monaco produces a richer royal revenue than any other country.

**EGGS**
